

NuvoPharms micro-cultivation craft cannabis business site will be located in the RM of Prince Albert No. 461, in very close proximity to the City of Prince Albert, Saskatchewan. The company will focus on cultivating, processing, and selling top quality, organic-grown craft cannabis and select cannabis extract products to wholesalers and retailers. The company will be owned by a group of shareholders including Jamie and Roni Novotny, owners of NuvoMedic Canna Consulting Ltd., a majority Metis owned cannabis consulting firm in Prince Albert. NuvoPharms products will also be distributed through Nuvomedic's two in-progress retail developments. One Retail will form part of NuvoPharms Farm-Gate model. The second Retail is in a high traffic area in Beauval, Saskatchewan. The company will look to gain market share in provincial, national, and international markets through the NuvoPharms Company.

The NuvoPharms facility will be located on a 1.48 acre parcel of land with a new 4,500 ft<sup>2</sup> building consisting of growing area and office space. Initially, the facility will be used to produce, package, and sell top quality organic-grown craft cannabis and fresh-pressed live rosin to recreational retail outlets. This facility has been planned with the potential to efficiently transition into a larger cultivation facility by way of a strategically phased scale up. A portion of the site has been designated for future expansion options (e.g. additional cultivation, the further addition of specialized microprocessor capabilities, etc.).

NuvoPharms has secured a proven industry consultancy, Trichome Consulting Services Inc., to ensure successful and expedited acquisition of licenses from Health Canada.

NuvoPharms' management team brings a vast collection of knowledge and experience in various domains ranging from Business, Administration and HR, to extensive Federal Government training and experience in Program Development and Management, Indigenous Relations, Economic Development, Communications and Northern Infrastructure Development. Mr. Novotny is accredited under the Kwantlen Polytechnic University (KPU) Continuing and Professional Studies Program - This includes industry level certification in the areas of Professional Management of Marijuana for Medical Purposes in Canada, Plant Production and Facility Management, and Marketing/Sales and Drug Development.

Our background, personal experiences, and values provide the necessary solid foundation for a revolutionary business model within the craft cannabis sector. NuvoPharms will be supported by Nuvomedic Canna Consulting Ltd. in various capacities throughout the development phase and into operations with the formulation and execution of strategic business development initiatives.
